#### SECTION 405 - BUFFER YARDS/SCREENING STANDARDS

405.01 Purpose and Intent: the purpose and intent of the Buffer/Screening Standards is to maintain many of the environmental features and amenities of the Town for present and future generations. Adherence to these regulations will improve the appearance and compatibility of land uses and other development within the Town through the installation and maintenance of plantings and fencing for screening and aesthetic effects, thereby serving to protect and preserve the appearance, character, value and safety of the total urban area and nearby properties. Attractive, well maintained buffer yards improve the quality of developing neighboring property owners that the adjacent project will remain relatively unobtrusive. It is intended that these provisions shall constitute minimum requirements.

405.02 Purpose of Buffer Yards and Screens: The purpose of a buffer yard is to provide a space or distance between two (2) incompatible uses. The purpose of screening is to provide an effective visual barrier between an unsightly or distracting activity and adjacent properties or public ways to preserve property values and assure compatibility of uses. It is also the purpose of these provisions to prescribe standards for development and maintenance of planning, fences, and walls, for conservation and protection of property through provision of barriers against traffic, trespass, noise, heat, glare, and dust, and through improvement of the appearance of individual properties, neighborhoods, and the Town. These standards shall apply to all landscaping and screening required by other provisions of the zoning regulations.

405.03 General Standards: Buffer yards and screens require Site Plan Review. Such required site plan shall set forth yards and open spaces, screening walls, or fences and other development and protective requirements considered necessary to create a reasonable transition to and protection of the adjacent property. When the developer needs to ask for a variance from these Buffer Yard Regulations, an alternative Design Plan which shall fulfill the intent of this Ordinance must be submitted to the Planning/Zoning Commission, which will, upon review, make a recommendation regarding the submission. Reference: Site Plan Review, Sections 2207-2210. Variances shall not be granted, which are less than the next lowest minimum standard, and only then if the size of the lot is such that a full buffer is not possible. The site plan should show plant succession, drainage patterns, and landscape design in order to determine if the trees/vegetation grow well in this region, and also if they make good visual screens.

405.04 Buffer Yard Standards Relating to Abutting Properties: In the table below, when a district abuts a use indicated, a buffer yard and screen shall be provided by the developing use applying for a building permit as listed in Table I:

**TABLE I**

405.05 Screening Relative to Abutting Properties: In the table above, when a district abuts a use indicated, screening shall be provided as listed. Screening/fencing may consist of architectural and/or vegetative materials as follows:

1. Architectural Screening: A screen/fence of wood, masonry, stone, concrete

or metal may be placed along the property line or along the inner perimeter of the buffer yard so as to provide visual screening at minimum height requirements, at the time of issuance of the Certificate of Occupancy.

2. Vegetative Screening: Trees and other vegetation as needed, shall be planted so as to provide year round visual screening at heights required by Table I. If screening is exclusively vegetation, minimum height requirements shall be met at the time of issuance of the Certificate of Zoning compliance. Earthen berms are considered a part of vegetative screening.
3. Combination of materials: Whenever two or more alternative types of landscaping, fences, or walls are prescribed, they may be provided singly or in any combination.

405.06 Installation and Maintenance: All buffer yards and screening shall be installed in a sound workman like manner and according to accepted good planting procedures with the quality of plant material as herein described. All screening elements of buffer yards shall be installed so as to meet all other applicable ordinances and code requirements. Buffer yards shall require protection from encroachment. (Encroachment is defined as any protrusion of a vehicle outside of a parking space, display area or access way into a buffer yard.) The owner shall be responsible for the maintenance of all buffer yards which shall be maintained in good condition so as to present a clean and orderly appearance.

In the event that plants are destroyed or die of natural causes, such materials shall be replaced within six (6) months. Failure of the owner of the property to maintain the buffer yard in good condition, as set forth above, shall subject him to the penalties as set forth in this Ordinance.

No buffer yard shall be abandoned, paved or otherwise employed for purposes other than screening.

405.07 Visibility at Intersections: See Section 401.04

405.08 Intersection of Driveway and public ROW and/or Private Street: In any district, nothing shall be erected, placed, planted, or allowed to grow in such a manner as to materially impair or block vision between a height of two and one half (2.5) and ten (10) feet above the center line grades of any interesting street/driveways in the area bounded by the street lines/driveway lines of such corner and a line joining points along said street lines fifteen (15) feet from the point of intersection.

- 405.09 Credit for Existing Plant Material: If the owner can demonstrate that healthy plant material exists on a site prior to its development for the purposes of buffer yard, the application of the above landscape standards may be adjusted by the Planning/Zoning Commission to allow credit for such plant material if such an adjustment is in keeping with and will preserve the intent of this Ordinance.
- 405.10 Planned District Standards: Fences, walls or vegetative screening shall be provided at the perimeter of planned developments where necessary to screen improvements, glare, uses or other influences having an adverse impact either on the planned development or on adjacent property. Such screening shall be of sufficient height as determined by the topography to improve the impact of such adverse elements on the first floor of any use located either within or adjacent to the planned development.
- 405.11 Zone Screening Standards: A screen (wall, fence, or landscaping) not less than six (6) feet or more than eight(8) feet in height shall be erected between commercially zoned property and abutting residentially zoned property at the time that any building or structure is erected on the commercial property. The height of the screening shall be the vertical distance measured from the top of the screen to the lowest point to grade within three (3) feet of such screen on the commercially zoned property. The screening shall be constructed on or immediately adjacent to the line dividing the residential and commercial properties. A new screen shall not be required where there is an existing screen, which substantially conforms to this section on the abutting residential property. If the existing screen on abutting residential property is the only screen that conforms to this section, and if is removed, a new screen shall be required.
- 405.12 Fencing and Landscape Standards. The screen required herein shall consist of a solid fence or wall at least fifty percent (50%) opaque and not less than six (6) nor more than eight (8) feet in height, but shall not extend within fifteen (15) feet of any street or driveway opening onto a street. The screening shall be placed along the property lines or in case of screening along a street, fifteen (15) feet from the street ROW with landscaping (trees, shrubs, grass, and other planting) between the screening and the pavement. A louvered fence shall be considered solid if it blocks direct vision. Planting of a type approved by the Site Plan Review Committee may also be required in addition to, or in lieu of, fencing. Existing screening which complies with minimum standards may be used to meet the requirements of this Ordinance.
- 405.13 Exceptions to Screen Requirements: The landscaping and screening requirements set forth in other provisions of the zoning regulations shall be subject to the following exceptions:

1. Equivalent Screening of Abutting Lot. Prescribed fences, walls, or dense landscaping need not be provided along a lot line if a building, fence, wall or dense landscaping of at least equivalent height, opacity, and maintenance exists immediately abutting and on the opposite side of said lot line.
2. Height Within Required Minimum Yard. Required fences, walls, or dense landscaping need not be higher than 3 and ½ feet in that portion of any required minimum yard which lies within ten (10) feet of any street line.
3. Lot Too Small to Accommodate a Full Buffer. Property owner may be allowed to substitute a berm or landscaped wall for all or part of the transitional yard requirements. The solid fence or wall should be constructed of materials that are compatible with the principal building.

405.14 Maintenance of Screens. All required planting shall be permanently maintained in good growing condition and, whenever necessary, replaced with new plant materials to ensure continued compliance with applicable landscaping requirements. All required fences and walls shall be permanently maintained in good condition and, whenever necessary, repaired or replaced.

In the event that the owner fails to maintain a buffer yard or planting strip as required, the Town shall have the right to go onto said property, maintain said buffer yard or planting strip and assess the property owner in the same manner as for taxes. Before such work by the Town the owner shall be given notice of the offending condition and a reasonable opportunity to repair it and is entitled to a due process hearing concerning the same.

405.15 Permits. Whenever a buffer yard or planting strip is required, it shall be completed prior to issuance of any certificate of occupancy and shall thereafter be maintained with permanent plant materials to provide a screen to abutting properties. They will reduce the possibility of traffic hazards as much as possible. Parking facilities must be designed to require vehicles leaving parking stalls to maneuver on the site to exit onto streets head first.

405.16 Design Standards for Screens, Buffers, Berms, and Walls. The purpose of these standards is to screen parking areas from view, to improve the appearance of parking areas near streets, to break the views of large expanses of pavement, to enhance property values and protect investments, to reduce erosion and storm water run off problems, to provide shade, to reduce glare, to encourage the saving of large trees and to reduce fumes and dust.

- A. Screens and buffers are not required along abutting bridge embankments, railroad tracks, slopes and retaining walls and where permanent landscaping is already provided.
- B. Masonry walls, sight proof fencing, or dense landscaping are required between commercial parking lots in side and rear yards abutting parcels that are residentially zoned or contain dwellings. These walls or fencing must be at least six feet high and may be combined with landscaping.
- C. Landscaped buffer strips are required between streets and parking lots or other driving surfaces except those serving single family and duplex dwellings. Interior parking islands are encouraged to be planted with trees and other shrubbery. If earthen berms are used, the berms must be used in conjunction with vegetation. Commercial establishments over one story tall must combine architectural screening with vegetative/ landscaping screening.

#### SECTION 406 - HOME OCCUPATIONS

Furthermore, an ample amount of such off-street parking shall be provided as determined by the Zoning Administrator at the time of the application for a building permit or change of use permit.

purpose other than residential.

406.05 Signs Relating to Home Occupations: See Article XXI.

406.06 Other Provisions: No equipment or process shall be used in a home occupation which creates noise, vibration, glare, fumes, or odors detectable to the normal senses outside of the dwelling unit or accessory building in which the occupation is conducted. No equipment or process shall be used in any home occupation which creates visual or audible electrical interference in any radio or television receivers off the premises, or causes fluctuations in line voltage off the premises.

406.07 Existing and new home occupations are required to have a privilege license in accordance with state law. A building permit (if construction is necessary in connection with proposed home occupation) or a change of use permit (if no construction is necessary) must be obtained from the Zoning Administrator prior to the initiation of a home occupation.

Failure to maintain such garbage disposal facilities in a neat and sanitary manner shall constitute a violation of this Ordinance and be subject to the penalties imposed herein.

All site plans for multiple family residential, manufactured home parks, commercial, industrial or public/quasi-public uses proposed following the effective date of this Ordinance shall indicate the location of garbage disposal facilities on the site and the type of enclosure (materials, height, etc.) to be installed.

of this Ordinance. An example of a quasi-public building in an R-M district might involve a manufactured home park owner who wishes to allow a civic club to use a building on the same property with the manufactured home park for meetings, etc.

#### SECTION 903 - SITE PLAN REQUIRED

No building permit to construct a new manufactured home park or to expand (by the addition of one or more spaces) an existing manufactured home park shall be issued until the applicant for the building permit has complied with the provisions of Sections 2207 through 2210 relative to site plan review. ## ARTICLE X

### PLANNED UNIT DEVELOPMENT ("PUD") DISTRICT

#### SECTION 1000 - PURPOSE OF THIS DISTRICT

The purposes for establishing Planned Unit Development ("PUD") districts are:

- A. To provide for the development of relatively large land areas as total cohesive and coordinated units, rather than development on a lot-by-lot basis.
- B. To permit more flexible and advantageous use of sites, especially with regard to natural features of the landscape, through the relaxation of conventional zoning requirements including minimum lot size and minimum lot width, while at the same time retaining approximately the same overall density as would ordinarily apply if the same areas were developed by conventional methods. (Note: However, minimum yard requirements are the same as for conventional districts.)
- C. To help reduce the cost of residential development by allowing more dwelling units per gross acre than could be built in a conventional low density subdivision (due to the extensive space requirements of streets rights-of-way, utility easements, etc., in a conventional subdivision) and by reducing the length of streets and utility extensions through concentration or clustering of housing.
- D. To provide for the development of sites in which land not used for structures and yards but not required by the basic zoning of the site shall be reserved collectively in contiguous units accessible to all dwellings within the PUD as open space; this open space will provide recreational opportunities for the residents of the PUD, and will also afford improved, safer pedestrian circulation within the PUD.

#### SECTION 1001 - PLANNED UNIT DEVELOPMENTS SHALL BE SUPERIMPOSED DISTRICTS

A Planned Unit Development shall be a superimposed designation on an existing low density residential district (either R-1 or R-2), thereby providing a broader latitude of design to achieve the purposes stated under Section 1000. As a superimposed designation, Planned Unit Developments shall be subject to the overall density requirements of the low density residential district over which they are superimposed. The maximum residential density shall be calculated as prescribed under Section 1006.02.

## SECTION 1002 - PRELIMINARY SUBDIVISION PLAT APPROVAL REQUIRED PRIOR TO DESIGNATION OF PLANNED UNIT DEVELOPMENT ON OFFICIAL ZONING MAP

Any person desiring to subdivide land for purposes of creating a PUD shall first prepare and submit a sketch plat (or "Development Plan" if the PUD is proposed to contain uses other than single-family detached residences) to the Director of Public Works in accordance with the Subdivision Regulations. All sketch plats for proposed PUD shall be reviewed by the Planning/Zoning Commission as well as the Director of Public Works and the Town Engineer.

## SECTION 1003 - REZONING REQUIRED FOR DEVELOPMENT OF PORTION OF PUD FOR TOWNHOUSES, PATIO HOMES, MULTIPLE-FAMILY RESIDENTIAL, OR COMMERCIAL USES

If a person desires to reserve a portion of a proposed Planned Unit Development for townhouses, patio homes, or multiple-family residential uses (condominiums or apartments), and such areas are not zoned appropriately for such densities, he shall submit an application for rezoning in accordance with Section 2206 of this Ordinance indicating which areas he desires to be rezoned to R-2 or R-3.

Likewise, portions of a PUD may be reserved for commercial use by applying for the appropriate commercial zoning if the subject land is not zoned commercial on the Official Zoning Map.

If the subdivider wishes to reserve portions of the proposed PUD for moderate density or high density residential development or commercial use, such areas shall be shown on a sketch plat or Development Plan", which shall be submitted with an application for rezoning. A rezoning to permit such residential densities or commercial uses shall only be approved upon the condition that the preliminary plat and individual site plans (for the high density residential or commercial development) substantially conform to the sketch plat or development plan.

## SECTION 1004 - LAND USES PERMITTED

The following uses are permitted outright in PUD districts subject to the regulations prescribed herein:

- A. Single-family detached dwellings (only one main structure per lot).
- B. Accessory uses and structures as defined under Article II of this Ordinance.
- C. Horticultural uses not involving the sale of produce on the premises.
- D. The keeping of animals in compliance with the Town of Wesson Animal Control Ordinance.

- E. Home occupations in compliance with Section 406 of this Ordinance.
- F. Public streets and highways.
- G. Private recreational or open space facilities, excluding country clubs and the like which shall be regulated as public/quasi-public facilities and utilities subject to the provisions of Section 402 of this Ordinance.

**SECTION 1005 - CONDITIONAL USES AND STRUCTURES (SPECIAL EXCEPTIONS)AS PROVIDED IN SECTION 2205**

- A. Public or quasi-public facilities or utilities may be considered for location in a PUD district in compliance with Section 402 of this Ordinance.
- B. Child care facilities.

**SECTION 1006 - DIMENSIONAL REQUIREMENTS**

- 1006.01 Minimum Size of PUD: The minimum size of any PUD shall be five (5) acres.
- 1006.02 Maximum Residential Development Density: The basic control of residential development density shall be the density requirement of the particular conventional district (i.e., R-1 or R-2) over which the PUD is superimposed. The maximum density shall be calculated by dividing 43,560 square feet by the minimum lot size and then multiplying that quotient by the total gross acreage to be included in the PUD.  
EXAMPLE: If a subdivider proposes to develop a 30 acre tract zoned "R-1" as a PUD, the basic control of density is that of the R-1 district: 43,560 square feet divided by 11,500 square feet (minimum lot size in R-1 districts), resulting in a quotient of 3.78 lots or dwelling units; 30 acres multiplied by 3.78 = 113 lots or single-family detached dwelling units.
- 1006.03 Minimum Lot Size: No minimum.
- 1006.04 Minimum Lot Width: No minimum.
- 1006.05 Minimum Yards: The minimum yard requirements for single-family detached dwellings in PUD districts shall be the same as those required in R-1 or R-2 districts.
- 1006.06 Maximum Height: 35 feet, unless greater height is specifically approved by the Mayor and Board of Aldermen.

SECTION 1007 - DIMENSIONAL REQUIREMENTS FOR TOWNHOUSES, PATIO HOMES, MULTIPLE FAMILY RESIDENTIAL AND COMMERCIAL PORTIONS OF A PUD

If an application for rezoning is approved to allow portions of a PUD to be used for townhouses, patio homes, condominiums or apartments, or some commercial classification, the dimensional requirements of the appropriate district shall apply.

SECTION 1008 - REQUIRED LANDSCAPING ALONG ARTERIAL STREETS

See Section 404.01 of this Ordinance regarding the provision of landscaping along arterial streets upon which the Planned Unit Development abuts.

SECTION 1009 - COMMON OPEN SPACE REQUIREMENTS FOR PLANNED UNIT DEVELOPMENTS

Common open space shall be provided as a condition to the approval of a Planned Unit Development. Such common open space shall consist of land reserved exclusively for the recreational use of the PUD residents and owned and maintained by the residents through a Homeowner's Association (see Section 1009.07).

Common open space shall be integrated throughout the PUD, easily accessible to all the residents. The sketch plat or Development Plan shall indicate the location and area (in acres) to be so reserved for open space or recreational facilities.

- 1009.01      Minimum Percentage of Land Reserved as Common Open Space: Common open space shall comprise at least twenty-five percent (25%) of the gross area (total acreage) of the PUD as shown on the required development plan. Public streets, parking lots (for example, a parking lot for a PUD recreational building), and utility easements shall not be considered in meeting the open space requirements of this Section.
  
- 1009.02      Maximum Amount of Common Open Space Covered By Water: No more than fifty percent (50%) of the required amount of open space may be covered by water (lakes, ponds, streams, etc.)
  
- 1009.03      Steep Slopes: In reviewing the preliminary subdivision plat for a proposed Planned Unit Development, the Planning/Zoning Commission shall determine if any land containing slopes of twelve percent (12%) or greater may be included in the required common open space. This determination shall be based upon the developer's specific proposed use of the steep slope land. The Planning Commission shall make a recommendation to the Mayor and Board as to whether or not any steep slope land should be approved for use in meeting the requirements of this Section.

1009.04 Physical Improvements: Common open space shall be suitably improved for the intended use, but open space containing natural features worthy of preservation may be left unimproved if such unimproved areas are approved by the Mayor and Board of Aldermen as part of the preliminary subdivision plat review process.

All open space improvements shall be shown on the sketch subdivision plat or Development Plan (approximate locations and dimensions and proposed use) and the preliminary and final plats (precise locations and dimensions and proposed use). Open space improvements may include pedestrian or bicycle trails, tennis courts, recreational buildings and swimming pools or similar facilities.

1009.05 Staged Development of a Planned Unit Development: If a Planned Unit Development is to be developed in stages or parts and the first part is to consist of the minimum of 5 acres, twenty-five percent (25%) must be reserved for open space, or 1.25 acres. The open space requirements for subsequent parts or phases shall be calculated based upon the total open space requirement for the entire subdivision, including the initial phase or phases. Thus, if a developer proposes to ultimately develop 40 acres of land for a Planned Unit Development and the first phase will only contain 5 acres, the developer must reserve a total of at least 10 acres for the entire subdivision, which may include the 1.25 acres reserved for the first part.

1009.06 Performance Bond Required: Prior to the sale of any lot in a Planned Unit Development, the developer shall post with the Town a performance bond of sufficient surety to insure the completion of all proposed open space improvements (where applicable). Such performance bonds must be issued by a company that is licensed and admitted to business in the State of Mississippi. The Director of Public Works and the Town Engineer in conjunction with the developer shall determine the amount of the performance bond after reviewing the construction plans for all improvements.

1009.07 Maintenance/Liability in the Operation and Use of Common Open Space Areas Not Dedicated to the Town of Wesson: Authority granted by the Town of Wesson for the development of a PUD shall not be construed as, nor constitute, an obligation on the part of Town of Wesson either for maintenance or liability in the operation and use of common open space and recreational facilities located in the PUD.

At the time the final subdivision plat is submitted for a PUD, the developer shall submit with his application for final plat approval a legal instrument or instruments which state that the assumption of liability

insurance, taxes and maintenance of open space and other common facilities shall rest with the owners of the several lots or parcels of land located within the PUD. In order to insure the integrity of the open space so that it will remain genuinely open, the legal instrument(s) shall specify that the open space restrictions are permanent, not just for a period of years.

**SECTION 1010 - REQUIRED FOR OFF-STREET PARKING, LOADING AND ACCESS CONTROL**

See Article XIX regarding parking, loading and access control requirements.

## DOWNTOWN PRESERVATION DISTRICT GUIDELINES

### SECTION 1209 - PURPOSE AND INTENT

The intent of this article is to provide minimum aesthetic standards for exterior architectural design for structures and buildings within the Downtown Preservation District zoning district. The ultimate goal of design guidelines is to direct physical and visual changes to create an architecturally and physically cohesive area of specified character. Design guidelines are meant to create a strong identity for the area as a distinctive place to shop, visit, work, and live. Design guidelines are a means of bringing together the interests of individual property owners and the general public to achieve mutual benefits.

### SECTION 1210 - SITE PLANNING

The site plan, building design, and landscaping of any new development should achieve a high quality appearance that will enhance and be compatible with the character of the surrounding area. Site planning and design of projects proposed should carefully address the potential undesirable impacts on existing uses. These impacts may include traffic, parking, circulation and safety issues, light and glare, noise, odors, dust control and security concerns.

### SECTION 1211 - MINIMUM BUFFER REQUIREMENTS

In addition to required setbacks, all non-residential and/or multi-family property uses within the Downtown Preservation District which abut a single-family residential use shall provide a minimum six (6) foot wide and fifteen (15) foot high buffer to provide a visual screen.

### SECTION 1212 - ARCHITECTURAL DESIGN

Architectural design should be compatible with the developing character of the neighboring area. Design compatibility includes complementary building style, form, size, color, materials, and detailing.

The designer should consider each of the following contexts as part of the design process:

1. Size (the relationship of the project to its site);
2. Scale (the relationship of the building to those around it);
3. Setback (in relation to setback of immediate surroundings);
4. Materials (their compatibility with the surrounding area); and
5. Context (the overall relationship of the project to its surroundings).

Architectural embellishments that add visual interest to roofs, such as dormers, masonry chimneys, cupolas, clock towers, and other similar elements are encouraged.

Blank windowless walls are discouraged. Long or continuous wall planes should be avoided, particularly in pedestrian activity areas, where buildings should exhibit more detail and elements appropriate for close range pedestrian view. In cases where long or continuous wall planes cannot be avoided, they shall be designed to minimize visual monotony by using significant landscape massing.

Efforts to coordinate the height of buildings and adjacent structures are encouraged; this is especially applicable where buildings are located very close to each other. It is often possible to adjust the height of a wall, cornice, or parapet line to match that of an adjacent building.

#### SECTION 1213 - BUILDING MATERIALS, FINISHES, AND COLORS

All sides of a commercial building have an impact on its surroundings and should be treated with an architectural finish of primary materials (i.e., brick, vinyl siding and stone), unless other materials demonstrating equal or greater quality are used. Front facades shall be either

- a. Brick or Stone
- b. Vinyl Siding
- c. A combination of brick, stone, stucco, or vinyl siding

Side facades shall be consistent in material with the front façade. Rear facades do not have a minimum requirement for primary materials and can consist entirely of secondary materials (e.g., stucco). Tertiary materials (i.e., wood and metal) shall be used for decorative elements and trim only.

The use of metal panels or metal sheathing, highly reflective or mirror-like materials, and/or standard gray concrete block on the exterior walls of any building or structure shall be prohibited with the exception that such materials may be used if finished with a masonry veneer including, but not limited to brick or stucco. Exposed plywood or particle board shall be prohibited on any building or structure.

Piecemeal embellishment and frequent changes in material or color shall be avoided.

High-intensity colors, metallic colors, black, or fluorescent colors shall not be used. Building trim and accent areas may feature brighter colors, including primary colors, provided that the width of the trim shall not exceed two feet. Final determination of color shall be approved by the Zoning Administrator.

Exposed, unfinished foundation walls shall be prohibited on any building or structure.

All garbage dumpsters and other similar areas devoted to the storage of waste materials shall be screened on three sides of said dumpster or area, with a minimum six-foot high solid wooden fence or a wall constructed of materials substantially similar in appearance to the building on site. In addition, said dumpsters shall be gated on the fourth side with a material that provides opaque screening.

Air condition units and HVAC systems shall be thoroughly screened from view from the public right-of-way and from adjacent properties by using walls, fencing, roof elements, or landscaping on multi-family and non-residential properties.

The design of fences and walls shall be compatible with the architecture of the main building(s) and should use similar materials. All walls or fences 50 feet in length or longer, and four feet in height or taller, shall be designed to minimize visual monotony by using significant landscape massing. Chain link fencing is prohibited. Use of special fencing design or materials should be discussed in cases where site security is paramount.

The front building façade of all principal buildings shall be oriented toward street fronts. On double frontage lots, the exposed side or rear of the building shall be covered by significant landscape massing.

## SECTION 1214 - EXTERIOR LIGHTING

Definitions:

Direct light: Light emitted directly from the lamp, off of the reflector or reflector diffuser, or through the refractor or diffuser lens, of a luminary.

Luminary: A complete lighting system, including a lamp or lamps and a fixture. This term shall be interpreted broadly as applying to all outdoor electrically powered illuminating devices, outdoor lighting or reflective surfaces, lamps and similar devices (permanently installed or portable), used for illumination or advertisement.

Luminary, full cutoff: Outdoor light fixtures shielded or constructed so that no direct light rays are emitted by the installed fixture at angles above the horizontal plane.

These regulations are intended to reduce the problems created by improperly designed and installed outdoor lighting, eliminate problems of glare, and minimize light trespass, with regulations that avoid unnecessary direct light from shining onto abutting properties or streets.

Any luminary that is aimed, directed, or focused such as to cause direct light from the luminary to be directed toward residential buildings on adjacent or nearby land, or to create glare perceptible to persons operating motor vehicles on public ways, shall be redirected or its light output controlled as necessary to eliminate such conditions.

For any commercial use, adjacent to a residential area, all luminaries, hereafter installed for outdoor lighting within the Downtown Preservation District shall be full cutoff luminaries, as defined by this section, or another luminary that does not emit any direct light above a horizontal plane through the lowest direct-light-emitting part of the luminary.

The following types of outdoor lighting are prohibited: searchlights, for advertising purposes, and the use of laser source light, or any similar high intensity light, for advertising purposes.

The following are exterior lighting recommendations consistent with the requirements as specified in this code:

(a) Exterior lighting should be architecturally compatible with the building style, material, and colors.

(b) Exterior lighting of the building and site should be designed so that the light source is shielded from direct offsite viewing. All outdoor light fixtures should be fully shielded or be designed or provided with light angle cut-offs, so as to eliminate up-lighting, spill light, and glare.

(c) Excessive illumination of signage, building, or site is prohibited. Roof lighting, down-lighting washing the building walls, and illuminated awnings are all strongly discouraged. (d) Fixture mounting height should be appropriate for the project and the setting. The mounting height of fixtures in smaller parking lots or service areas should not exceed 20 feet, with lower mounting heights encouraged, particularly where adjacent to residential areas or other sensitive land uses. Use of low, bollard-type fixtures that are three to four feet in height, is encouraged as pedestrian area lighting.

### GENERAL COMMERCIAL DISTRICT (C-2)

#### SECTION 1300 - PURPOSE OF THIS DISTRICT

The purpose of this district is to promote the development of well planned shopping centers and independent commercial uses within carefully selected areas of the Town of Wesson. The commercial activities permitted in this district include uses of a higher intensity than those first allowed in Restricted Commercial districts (C-1). Although shopping center uses permitted in this zone require access to an arterial street, such uses are not "highway oriented" like those first allowed in the Major Thoroughfares Commercial District (C-3). Uses first permitted in C-3 Major Thoroughfares Commercial districts and C-4 Adult Entertainment districts shall not be permitted in the C-2 district.

It is the intent of this Ordinance that shopping centers and independent commercial uses be developed so that pedestrian and vehicular circulation is coordinated with the circulation patterns of adjacent properties in the vicinity that are also affected. In order to facilitate access between adjoining properties and to reduce the number of curb cuts onto arterial streets, the installation of a service drive shall be considered in connection with any independent commercial use (i.e., a commercial use that is not a part of a shopping center) proposed in this district.

#### SECTION 1301 - LAND USES PERMITTED

The following uses are permitted outright in C-2 districts subject to the regulations prescribed herein:

- A. All uses allowed in C-1 Restricted Commercial district. (NOTE: The C-2 district DOES NOT PERMIT SINGLE-FAMILY DETACHED RESIDENCES, which are permitted in the "Downtown Preservation District").
- B. Commercial uses in which services performed and merchandise offered for sale are conducted or displayed within enclosed structures, except for the display of small articles (i.e., those that can generally be hand-carried by one or two persons) outside the commercial use).
- C. Shopping centers located on minimum sites of three (3) acres on an existing or proposed arterial street as shown on the adopted Thoroughfares Plan; shopping centers may contain any of the uses permitted outright in C-2 zones.
- D. Hotels and motels.

- E. Restaurants, EXCLUDING drive-in restaurants.
- F. Veterinary clinics and pet shops, excluding outside runs.
- G. .Bowling alleys, skating rinks and similar recreational or entertainment enterprises conducted entirely within enclosed structures.

- A. Service stations including vehicle repairs (except body repairs), provided that all vehicle repairs except those of a minor nature (e.g., change of fan belt, minor carburetor adjustments, tire repairs) are conducted entirely within an enclosed building and provided that all such service stations are located on an arterial street designated as such by the adopted Thoroughfares Plan.
- B. Convenience or "drive-in" grocery stores.
- C. Bars, as defined by this Ordinance. No bar selling intoxicating liquor as defined by the MS Code shall be located less than five hundred (500) feet from any church, school, kindergarten or funeral home.

- E.B boat and marine sales, rental or lease, and boat/ marine service.
- F. Mortuaries or funeral homes, provided such uses shall be located on an existing or proposed arterial street as shown on the adopted Thoroughfares Plan.
- G. Horticultural nurseries shall be considered only as conditional uses in C-2 districts because much of the activity associated with these uses is conducted out-of-doors.
- H. Public or quasi-public facilities and utilities in compliance with Section 402 and other regulations of this Ordinance.

The Town of Wesson Planning/Zoning Commission and the Mayor and Board of Aldermen have found that there is substantial evidence, including numerous studies, reports and findings on the potential harmful effect of adult entertainment uses made by cities, experts, urban planners, etc., which document that such uses adversely affect property values, cause an increase in crime, encourage businesses to move elsewhere, and contribute to neighborhood blight.

In accordance with one of the adopted goals of the Goals and Objectives of the Town of Wesson, the Town will continue to encourage the development of lower intensity industrial uses (i.e., uses in which the industrial activity is primarily conducted indoors and which do not have objectionable characteristics.) The purpose of this district is to provide areas for the exclusive development of such lower intensity manufacturing and industrial uses within fully enclosed (on all sides) buildings. It is the intent of this Ordinance that I-1 land uses be compatible with abutting districts, such as commercial districts, which will serve as transitional zones between the industrial uses and the lower intensity residential uses. The uses permitted in I-1 districts shall generate no odor, smoke, fumes, vibration, or excessive noise detectable off the premises. ### SPECIAL USE DISTRICT (S-1)

#### SECTION 1800 - PURPOSE OF THIS DISTRICT

The purpose of this district is to provide areas for the development of special uses, which, because of their size, institutional nature and/or unique characteristics, do not fit compatibly into other zoning districts of the Town. Such uses commonly constitute "self-contained communities" with housing, dining/food service facilities, recreational uses, commercial-type outlets, and parking lots provided primarily for the benefit of the staff, students, and residents of the institution on the grounds. The uses permitted in S-1 districts do not include "public/quasi-public facilities and utilities" as those are defined by this Ordinance.

#### SECTION 1801 - ZONING OF ALL PROPERTY OWNED BY INSTITUTIONAL USES PERMITTED IN THIS DISTRICT SHALL BE S-1 UNLESS REZONED

The zoning of all property owned by institutions permitted in this district, including educational institutions, comprehensive elderly retirement facilities, or large-scale group care facilities shall be "S-1 Special Use District" unless the land owned by such institutions is rezoned by the Mayor and Board of Aldermen. Furthermore, if the operators of such institutions propose to acquire additional land following the effective date of this Ordinance, the operators of such institutions shall file an application for the appropriate zoning if not already zoned consistent with the proposed use. If the land to be acquired is to be used for the purposes specified in this article, then the land shall be zoned "S-1" accordingly.

This provision is intended to alert the public as to the possible character of future development of land proposed for rezoning by the operators of such institutional uses: for example, a proposed rezoning from "S-1" to a commercial classification.

#### SECTION 1802 - LAND USES PERMITTED

- A. Educational institutions, including large-scale (with campuses generally encompassing 50 acres or more) colleges and universities, religious seminaries, and technical and vocational training facilities. ## ARTICLE XIX

### OFF-STREET PARKING, LOADING SPACE AND ACCESS REQUIREMENTS

#### SECTION 1900 - PURPOSE OF THIS ARTICLE

The purpose of this Article is to establish requirements regarding: (1) sufficient space for the off-street parking and, where required, parking lot landscaping; (2) sufficient space for loading (or unloading) of all motor vehicles; and (3) design standards for access ways within the Town of Wesson. The purpose of these requirements is to reduce or avoid congestion of streets and to provide a more suitable living and working environment. Such space for parking or loading of motor vehicles, provisions for ingress and egress, and required landscaping shall be provided at the time of the erection of any principal structure, or at the time any principal structure is enlarged or increased in capacity by the addition of dwelling units, guest rooms, floor area, or seats. The responsibility for meeting the requirements established by this Ordinance shall be that of whoever establishes the use to which it is appurtenant.

#### SECTION 1901 - OFF-STREET PARKING

1901.01        General Requirements: Off-street parking and loading space shall be provided in accordance with the following regulations:

1.        Provision of Parking Space on the Same Lot with all Residential Uses: Off-street parking space for all residential land uses shall be provided on the same parcel of land as the residential use to which the parking space is an accessory.
2.        Non-residential Uses and Off-site Parking: Off-street parking space for all non-residential land uses shall be provided on the same parcel of land as the use to which the parking space is appurtenant. However, that, following site plan review by the Planning/Zoning Commission in accordance with Sections 2207 through 2210 of this Ordinance, the Mayor and Board of Aldermen may authorize in writing an alternative off-site location to the required parking space for such non-residential land uses if:
  - a.        There are practical difficulties preventing the location of parking space on the same parcel; and/or
  - b.        The public safety or the public convenience or both would be better served by the location of the required space on a parcel of land other than with the use to which it is appurtenant.
- C.        Provision of Access and Maneuver Space for Non-Residential Land Uses: In calculating any required parking area, other than for parking spaces

required for single and two-family dwellings, sufficient access and maneuver space shall be provided to permit the parking and removal of any vehicle without moving other vehicles. Furthermore, all parking spaces shall be designed, maintained and regulated so that no parking or maneuvering incidental to parking shall be on any public street, sidewalk, or alley; and exiting will not require backing into a public street.

- D. Parking Space Near Fire Hydrants: Under no circumstances shall any parking space be provided within ten (10) feet of a fire hydrant.

1901.02 Schedule of Off-Street Parking Requirements: For the purpose of this Ordinance, an "off-street parking space" shall consist of a space sufficient in size to store one full size automobile (minimum of 200 square feet in area) with room for opening doors on both sides. When computing parking space requirements on the basis of the number of persons expected to be on the premises of a particular land use, the maximum number of occupants, practitioners, patrons or employees anticipated to be on the premises at any one time shall be used. When the application of the requirements of this Section would result in a fractional space, any such fraction shall be counted as one space. In the case of mixed, compatible subcategories of land use (e.g., as shopping centers containing a grocery store, a furniture store, a motion picture theater, etc.), the parking space required by the schedule below shall equal the sum of the requirements for each of the various uses (subcategories) computed separately. Off-street space for parking and storage of vehicles shall be provided in accordance with the following schedule:

- A. All Residential Uses Other Than Multiple Family: Two spaces per dwelling unit.
- B. Multiple Family Uses: 2.5 spaces per dwelling unit.

- (7) Gasoline service stations - One space for each employee and five spaces for each wash rack, lubrication rack, repair bay or similar facility for servicing and incidental repair of motor vehicles (not including said rack or bay as a space).
- (8) "Drive-in service" establishments, such as drive-in banking, drive-in "windows" for restaurants, dry-cleaning and laundry establishments and similar uses - In addition to one parking space for every 220 square feet of gross floor area (one space for every 50 square feet of gross floor area in restaurants), each such establishment shall have five standing spaces (i.e., spaces for vehicles waiting in line for service) for each teller window or other facility at which customer service is provided.
- (9) Motor vehicle repair shops, body shops, etc. - One space for each regular employee, plus one space for each 300 square feet of floor area used for mechanical or body repair.
- (10) Motor vehicle sales, machinery sales and equipment sales establishments - Two parking spaces (one customer and one employee) for each 1,000 square feet of area utilized for the display of vehicles, machinery or equipment for sale, whether or not said area is enclosed. D. Public/Quasi-Public Facilities and Uses: Off-street parking space requirements for public/quasi-public facilities and uses shall be determined based upon a site plan and in accordance with the following schedule of requirements:

- (1) Churches - One parking space for each five fixed seats in the principal assembly hall or one parking space for every 90 linear inches of pew space, whichever is applicable.
- (2) Hospitals - One space for each patient bed, plus one space for each employee determined by the number of employees on the largest shift.

persons, developers shall comply with the Federal regulations implementing the Americans with Disabilities Act.

A 90-degree parking angle shall be required for all parking lots unless the developer can demonstrate to the Town of Wesson Planning/Zoning Commission during required site plan review (see Sections 2207 through 2210) that there are unusual circumstances, such as an unusual lot shape, that would make it necessary to use a parking angle other than 90-degree. Developers shall have the following options regarding the width of parking stalls:

- A. Parking stalls shall be marked by a four-inch stripe hair pinned" or looped line painted on the pavement, with a minimum of 12-18 inches between the looped lines. Parking stalls shall be a minimum of nine feet wide, measured center to center of the hair pinned lines; or (2) Parking stalls shall be marked by a straight four-inch stripe painted on the pavement. Parking stalls shall be a minimum of nine and one-half feet wide, measured center to center of the straight line.

Adequate off-street space for the loading and unloading of vehicles and for vehicles temporarily stopped ("standing") while waiting to be loaded, unloaded, or serviced, shall be provided and maintained for all commercial and industrial uses and any other use involving the receipt or distribution by vehicles of materials, merchandise or other matter on a regular basis. Said space shall be provided on the same premises with the use to which it is appurtenant, unless with a recommendation from the Planning/Zoning Commission, the Mayor and Board of Aldermen authorize in writing an alternative location for such loading or unloading. Unless otherwise specified in this Ordinance, loading, unloading or standing space shall be provided in accordance with the following:

One loading space measuring at least 12 feet by 55 feet with a minimum height clearance of 14 feet for the first 3,000 square feet of building and/or storage area; PLUS one additional loading space with the same space requirements as above for each 10,000 square feet of building and/or storage area above the first 3,000 square feet. (Examples: (1) A parcel of land containing 3,000 square feet of area which is used for the storage of building supplies or a commercial building containing 3,000 square feet of floor space: one loading space would be required for either situation; (2) a parcel of land containing 23,000 square feet of outdoor storage area or a building containing 23,000 square feet of floor area: a minimum of three loading spaces would be required in either situation.)

**SECTION 1903 - ACCESS WAYS**

Developers of public/quasi-public uses, multiple family residential uses, all commercial uses and all industrial uses shall control access along arterial and collector streets upon which the use abuts in accordance with the following regulations:

1903.01      Access Barrier: Each lot, with its buildings, other structures and parking and loading areas shall be physically separated from each adjoining street by a curb or other suitable barrier against unchanneled motor vehicle ingress or egress. Except for the ACCESS WAYS permitted below, such barrier shall be continuous for the entire length of any lot line adjoining a street.

1903.02      Distances between ACCESS WAYS on the Same Lot, Minimum Setbacks from Street Intersections, and Driveway Width Regulations for Multiple-Family Residential, Commercial, Industrial and

Public/Quasi-Public Uses: All ACCESS WAYS for multiple-family residential, commercial, industrial, and public/quasi-public uses shall comply with Table 3. The functional classification of all streets and highways shall be determined by the classification shown on the adopted Land Uses/Thoroughfares Plan.

1903.03 Common ACCESS WAYS To Reduce Traffic Hazards on Collector and Arterial Streets: Where practicable, developers of adjoining lots for commercial, industrial, or public/quasi-public uses shall provide common ACCESS WAYS in order to reduce the number of points of ingress and egress along collector and arterial streets. The provision of such common ACCESS WAYS with adjoining properties shall be considered in the preparation of the site plan required by these regulations. Site plans shall not be recommended for approval unless the Planning/Zoning Commission determines that the developer has made a reasonable effort to coordinate the provision of common ACCESS WAYS with adjoining property owners.

## ARTICLE XX

### NONCONFORMITIES

#### SECTION 2000 - PURPOSE OF THIS ARTICLE

A nonconformity is any land, lot, building, structure or parts thereof, existing prior to the enactment of this Ordinance, which subsequent to the enactment of this Ordinance or amendment thereto, does not conform with the use regulations and/or dimensional regulations of the district in which it is situated, and/or does not comply with any other requirements herein.

It is the intent of this Ordinance to permit nonconformities to continue until they are removed, but not to encourage their survival. It is further the intent of this Ordinance that nonconformities shall not be enlarged upon, expanded, or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

Nonconforming USES (see definition under Section 2001 below) are declared by this Ordinance to be incompatible with permitted land use in the districts involved. Therefore, a nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of structure and land in combination shall not be extended or enlarged after passage of this Ordinance by the addition of other uses of a nature which would be prohibited generally in the district involved.

To avoid undue hardship, nothing in this Ordinance shall be deemed to require a change of plans, construction, or designated use of any building on which ACTUAL CONSTRUCTION WAS LAWFULLY INITIATED PRIOR TO THE EFFECTIVE DATE OF ADOPTION OR AMENDMENT OF THIS ORDINANCE and upon which actual building construction has been carried on diligently. Actual construction" is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially initiated preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be "actual construction", provided that work shall be carried on diligently.

#### SECTION 2001 - TYPES OF NONCONFORMITIES

Where the definition of a nonconformity has been given in Section 201 and under Section 2200, such non-conformities shall be further defined according to one of the types of non-conformities listed below, or combination thereof, for the purpose of regulation.

- 2001.01 Nonconforming Undeveloped "Lot of Record": This type of nonconformity is an undeveloped "lot of record" (i.e., part of a subdivision, the map of which has been recorded in the office of the Chancery Clerk of Copiah County, Mississippi, or a lot described by metes and bounds, the description of which has been recorded in said office) the

dimensions of which, subsequent to the passage of this Ordinance, do not meet the area or width requirements, or both, of the district wherein such lot is located.

- 2001.02 Nonconforming Structure (Including Buildings): This type of nonconformity includes anything lawfully constructed or erected with a fixed location on the ground (or attached to something having a fixed location on the ground) prior to the passage of this Ordinance, but which subsequently does not comply with the bulk, placement or other dimensional requirements of the zoning district wherein located.
- 2001.03 Nonconforming Use: This type of nonconformity includes the uses of any land, lot, building, structure, or parts thereof, which lawfully existed prior to the passage of this Ordinance but which subsequently does not comply with all or some part of the use requirements of the zoning district wherein located.

## SECTION 2002 - REGULATIONS CONCERNING NONCONFORMING UNDEVELOPED LOTS OF RECORD

- 2002.01 Erection of One-Family Dwellings Allowed on Single Nonconforming Undeveloped (or Vacant) Lots of Record in Separate Ownerships: In any district in which one-family dwellings are permitted, a one-family dwelling and customary accessory buildings may be erected on any SINGLE nonconforming undeveloped (or vacant) lot of record after the effective date of this Ordinance, notwithstanding limitations imposed by other provisions of this Ordinance. Such lots must be in SEPARATE OWNERSHIP and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such single lot of record fails to meet the requirements for area or width, or both, that are generally applicable in the district, PROVIDED THAT:

The required yard dimensions and other requirements (than those applying to lot area or width, or both) of the proposed single-family residential use shall conform to the regulations in the district in which such single nonconforming lot of record is located.

Variance of yard requirements shall be obtained only through action of the Mayor and Board of Aldermen following recommendation of the Planning/Zoning Commission. (See Section 2204 of this Ordinance).

- 2002.02 Two or More Nonconforming Undeveloped (or Vacant) Lots of Record with Continuous Frontage Changing Ownership After the Effective Date of This Ordinance: If two or more undeveloped (or vacant) lots in single ownership with continuous frontage are "of record" at the time of

enactment of this Ordinance, and if, subsequent to the passage of this Ordinance, such lots become non-conformities in the district where they are located; and if such lots change ownership after the enactment of this Ordinance, the lands involved shall be considered as UNDIVIDED PARCEL for the purposes of this Ordinance; and no portion of said parcel shall be used in a manner which diminishes compliance with the lot width and/or lot area requirements established by this Ordinance, nor shall any division of any parcel be made which creates a lot width or area (or both) below the requirements stated in this Ordinance.

The provisions of this subsection shall not apply to two or more undeveloped lots of record in single ownership with continuous frontage which remain in the same ownership (or if the lots are conveyed by inheritance or as a gift) following enactment of this Ordinance. Such lots not changing ownership shall continue to be considered divided parcels; and the owner of such lots may erect single-family dwellings on each lot in districts where single-family dwellings are permitted, subject to the regulations imposed by subsection 2002.01. However, further division of such nonconforming lots of record shall be prohibited.

No lot shall be created on or after the effective date of this Ordinance which does not meet the lot area and lot width requirements of the district wherein the lot is located.

### SECTION 2003 - REGULATIONS CONCERNING NONCONFORMING STRUCTURES

Where a lawful structure exists before the effective date of adoption or amendment of this Ordinance that could not subsequently be built under the terms of this Ordinance by reason of restrictions on area, lot coverage, height, yards, its placement on the lot, or other dimensional requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, PROVIDED THAT:

- A. No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity.
- B. Should such nonconforming structure or nonconforming portions of a structure be destroyed by any means to an extent of more than 50 percent of its replacement cost at the time of destruction, it shall not be reconstructed, except in conformity with the provisions of this Ordinance.
- C. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

SECTION 2004 - REGULATIONS CONCERNING NONCONFORMING USES OF LAND  
(OR LAND WITH MINOR STRUCTURES ONLY)

Where at the time of passage of this Ordinance, lawful use of land exists which would not be permitted by the regulations imposed by this Ordinance, and where such use involves no individual structure with a replacement cost exceeding \$1,000.00, the use may be continued so long as it remains otherwise lawful, PROVIDED:

- A. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance;
- B. No such nonconforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this ordinance;
- C. If any such nonconforming use of land ceases for any reason for a period of more than 30 days (except where government action has impeded access to the premises), any subsequent use of such land shall conform to the regulations specified by this Ordinance for the district in which such land is located;
- D. No additional structure not conforming to the requirements of this Ordinance shall be erected in connection with such nonconforming use of land.

SECTION 2005 - REGULATIONS CONCERNING NONCONFORMING USES OF MAJOR STRUCTURES OR OF MAJOR STRUCTURES AND LAND IN COMBINATION

If lawful use involving individual MAJOR structures (i.e., those with a replacement cost of \$1,000 or more) or of such MAJOR structures and land in combination, exists prior to the effective date of adoption or amendment of this Ordinance, that would not be allowed in the district under the terms of this Ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No existing structure devoted to a use not permitted by this Ordinance in the district in which it is located shall be enlarged, extended, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.
- B. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Ordinance, but no such use shall be extended to occupy any land outside such building.
- C. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to

the regulations for the district, and the nonconforming use may not thereafter be resumed.

- D. When a nonconforming use of a structure, or structure and land in combination, is discontinued or abandoned for six consecutive months or for six months during any three year period (except when government action has impeded access to the premises), the structure, or structure and land in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.
- E. Where nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this subsection is defined as damage to the extent of more than 50 percent of the replacement cost at the time of destruction.

## ARTICLE XXI

### SIGN REGULATIONS

#### SECTION 2100 - PURPOSES

The purposes of this ordinance are to regulate signs, as defined under Article II, for the following reasons:

- U. To assure that signs are appropriate to the land, building, or use to which they are appurtenant, thereby protecting the character and economic stability of surrounding property.
- V. To assure that signs are adequate but not excessive for their intended purpose.
- W. To prohibit the erection, placement or retention (in the case of signs erected prior to the adoption of this Ordinance) of any sign which constitutes a hazard to the public safety.
- X. To prohibit the erection, placement, or retention of any sign which constitutes a nuisance by reason of glare, noise, animation, flashing, or other objectionable influence.

#### SECTION 2101 - PERMIT REQUIRED/ APPLICATIONS FOR SIGN PERMITS

Except for the signs listed under Section 2103 and temporary signs listed under Sections 2116, 2117, and 2118, no sign shall be constructed, erected, relocated or expanded unless the owner (or his/ her representative) obtains a sign permit from the Zoning Administrator. The Zoning Administrator shall not issue a sign permit unless the proposed sign complies with the provisions of this Ordinance and other applicable ordinances and regulations of the Town of Wesson.

Applications for sign permits shall be filed with the Zoning Administrator on a form provided by the Town. The permit application shall include, but not necessarily be limited to, the following information:

- A. Name and address of the sign owner and of the sign erector.
- B. Zoning district in which the sign is to be erected, expanded (or otherwise modified) or relocated.
- C. Sign type proposed.

- D. Drawings showing the design, location(s) on the lot(s), materials, finishes of the sign, type of illumination if any, and such other pertinent information as the Zoning Administrator may require.

#### SECTION 2102 - SIGN MEASUREMENT/ SIGN FACES

The surface area of a sign shall be computed as including the entire area within a rectangle, triangle, circle, or other geometric form, or aggregates thereof, encompassing all of the display area of the sign and including all of the elements of the matter displayed. Base, apron, supports and other structural members not bearing advertising matter shall not be included in computation of the surface area. Border or trim shall not be included in computation of surface area. In measuring the required setbacks for ground-mounted signs, the measurement shall be from the appropriate street or highway right-of-way or property line to the leading edge of the sign, including the structural members of the sign.

The Mayor nor any Alderman shall participate in the hearing of the singular item nor vote on any matter before the Mayor and Board in which he has a personal financial interest.

#### SECTION 2204 - DIMENSIONAL VARIANCES

Where the strict application of this Ordinance would result in peculiar and exceptional practical difficulties to or exceptional hardship upon the owner of such property, the Planning/Zoning Commission shall conduct a public hearing on applications for dimensional variances, and is empowered to grant approval of such dimensional variances from the strict application so as to relieve such difficulties or hardships. Examples of such difficulties or hardships include exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the original adoption of this Ordinance; or by reason of the location of trees, natural

drainage course, lakes, or other desirable or attractive features, which condition is not generally prevalent in the neighborhood.

- 2204.01 Requirements for Granting Variances: Any person desiring a dimensional variance from the terms of this Ordinance shall submit a written application (on a form furnished by the Zoning Administrator) demonstrating compliance with ALL of the following; a variance shall not be granted unless the applicant demonstrates:
- A. That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings, in the same district.
  - B. That literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.
  - C. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to other lands, structures, or buildings in the same zoning district.
- 2204.02 Existence of Non-Conforming Uses Not Grounds for Variance: The existence of non-conforming uses of neighboring lands, structures, or buildings in the same zoning district shall not be considered grounds for granting a variance. Furthermore, the existence of permitted or non-conforming use of lands, structures, or buildings in other districts shall not be considered grounds for issuance of a variance.
- 2204.03 When a Site Plan Shall Be Required: If the Zoning Administrator feels that more information is needed than is included on the plot diagram submitted with an application for a building permit, then a site plan shall be submitted with an application for a dimensional variance.
- 2204.04 Public Hearing Required: A public hearing shall be held in accordance with Section 2211 of this Ordinance for all proposed dimensional variances.
- 2204.05 Required Findings: No variance shall be issued until the Planning/Zoning Commission has made a finding that the reasons set forth in the application justify the granting of the variance, and that the variance constitutes the minimum allowable deviation from the dimensional regulations of this Ordinance in order to make possible the responsible use

of the land, building or structures. Furthermore, no variance shall be granted until the Planning/Zoning Commission has made a finding that the granting of the dimensional variance will be in harmony with the general purpose and intent of this Ordinance, and that the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

2204.06 Conditions and Safeguards May Be Prescribed with Dimensional Variance: In granting any dimensional variance, the Planning/Zoning Commission may prescribe appropriate conditions and safeguards in conformity with this Ordinance. Violations of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Ordinance and punishable under Section 2214 of this Ordinance.

If such conditions and safeguards are imposed by the Planning/Zoning Commission in granting a variance, the applicant shall be required to sign an agreement whereby he/she accepts those conditions and safeguards (which shall be specified in the agreement). This instrument shall be in a form recordable in public land records.

2204.07 Granting of a "Use Variance" Prohibited: Under no circumstances shall the Planning/Zoning Commission issue a variance for to allow a use not permissible under the terms of this Ordinance in the District involved, or any use expressly or by implication prohibited by the terms of this Ordinance in said district.

## SECTION 2205 - SPECIAL EXCEPTIONS (CONDITIONAL USES)

The Planning/Zoning Commission is empowered to hear and decide whether or not proposed special exceptions (conditional uses) authorized under this Ordinance should be granted.

2205.01 Requirements for Granting a Special Exception or Conditional Use Permit): Any person desiring a special exception shall submit a written application (on a form furnished by the Zoning Administrator) indicating the Section in the Ordinance under which the conditional use is sought and stating the grounds on which it is requested. The Planning/Zoning Commission shall not grant a special exception unless satisfactory provision and arrangement has been made concerning ALL of the following:

- A. Ingress and egress to property and proposed structures thereon with particular reference to vehicular and pedestrian safety and convenience,

traffic flow and control, and access in case of fire or catastrophe.

- B. Off-street parking and loading areas.
- C. Refuse and service areas.
- D. Utilities, with reference to locations, availability, and compatibility.
- E. Screening and buffering with reference to type, dimensions, and character.
- F. Required yards and other open space.
- G. General compatibility with adjacent properties and other property in the district.
- H. Any other provisions deemed applicable by the Planning/Zoning Commission.

2205.02 Site Plan Required: Every applicant for a special exception (conditional use permit) shall submit a site plan in accordance with Sections 2208 and 2209 of this Ordinance.

2205.03 Public Hearing Required: A public hearing shall be held in accordance with Section 2211 of this Ordinance for all proposed special exceptions.

#### SECTION 2206 - AMENDMENTS TO THE ZONING ORDINANCE TEXT OR THE OFFICIAL ZONING MAP (REZONING)

2206.01 Type of Amendments/Application Required: Amendments to this Ordinance include: (1) amendments to the text; and (2) amendments to the Official Zoning Map, which is legally a part of this Ordinance. Any person may initiate an amendment to this Ordinance by filing an application with the Zoning Administrator (on a form furnished by him/her).

2206.02 Site Plan Required: If a specific use is identified by the applicant for a rezoning (i.e., a proposed amendment to the Official Zoning Map), then the application for rezoning shall be accompanied by a site plan prepared in accordance with Sections 2208 and 2209 of this Ordinance.

2206.03 Criteria for Rezoning: No amendment to the Official Zoning Map shall be approved unless the proposed rezoning meets one of the following criteria:

- A. That there was a mistake in the original zoning. "Mistake" in this context shall refer to a clerical or administrative error, such as a mistake of draftsmanship on the Official Zoning Map or incorrectly reflecting the Planning/Zoning Commission's decision in the minutes. "Mistake" DOES NOT mean that the Planning/Zoning Commission made a mistake in judgment in their prior zoning, such as not realizing the full import of the zoning classification or mistakenly placing the property in one classification when the evidence indicated that another would have been more appropriate.
- B. That the character of the neighborhood has changed to such an extent as to justify reclassification, AND that there is a PUBLIC NEED for the rezoning.

- 2206.04 Proposed Rezoning Shall Be Consistent with Adopted Comprehensive Plan: Section 17-1-9 of the Mississippi Code of 1972, As Amended, requires that "zoning regulations shall be made in accordance with a comprehensive plan---." Accordingly, no amendment to the Official Zoning Map shall be approved by the Planning/Zoning Commission unless the proposed rezoning is consistent with all four elements of the adopted Comprehensive Plan of the Town of Wesson, including the Goals and Objectives, the Land Use Plan, the Transportation Plan, and the Community Facilities Plan.
- 2206.05 Public Hearing Required: In accordance with Section 17-1-17 of the Mississippi Code of 1972, As Amended, a public hearing shall be held on any proposed amendment to the text of this Ordinance or the Official Zoning Map following at least fifteen days notice of the hearing in "---an official paper or a paper of general circulation in such municipality ---specifying a time and place of said hearing." The hearing shall be held in accordance with Section 2214 of this Ordinance.
- 2206.06 Identification of Adjacent Property Owners: The applicant for the rezoning shall furnish to the Zoning Administrator, with the completed application, the names and addresses of all persons owning land 300 feet from the subject property (excluding the rights-of-way of streets or highways).
- 2206.07 Public Hearing Before Mayor and Board of Aldermen Unnecessary Unless Requested by Aggrieved Party: Following a public hearing held before the Planning/Zoning Commission on a proposed amendment to this Ordinance (either an amendment to the text or Official Zoning Map), it shall NOT be necessary to hold another hearing on the proposed amendment; the Mayor and Board of Aldermen may act upon the recommendation of the Planning/Zoning Commission. However, any party aggrieved by the recommendation of the Planning/Zoning Commission SHALL be entitled

to a public hearing before the Mayor and Board of Aldermen, with due notice thereof as provided under Section 2211 of this Ordinance.

- 2206.08 Two-Thirds Vote of Board of Aldermen Necessary to Approve Rezoning Under Certain Circumstances: In case of a protest against a proposed rezoning signed by twenty percent (20%) or more of the property owners, either within the area of the proposed rezoning or those within 300 feet (excluding the rights-of-way of streets or highways) of the property proposed for rezoning, such amendment shall not become effective except by the favorable vote of two-thirds of all members of the Mayor and Board of Aldermen.
- 2206.09 Res Judicata: Upon the submission of an application for a rezoning, and a determination by the Planning/Zoning Commission that said application should be denied, the Planning/Zoning Commission shall not accept a subsequent application to rezone the same property or any part thereof to the same classification until the expiration of one (1) year from the date of the decision of the Board denying said application. This is known as the doctrine of res judicata. However, if the application relates to the same property but seeks zoning to a different classification, the doctrine does not apply; and the Planning/Zoning Commission may consider such a proposed rezoning.
- 2206.10 When an Ordinance Amending Text or Official Zoning Map Is Required and Publication of That Ordinance: No amendment to the Official Zoning Map or the text of this Ordinance shall become effective until an Ordinance amending same has been passed by the Mayor and Board of Aldermen. Any ordinance amending the Official Zoning Map shall contain findings of fact citing evidence demonstrating compliance with the criteria specified under Section 2206.03 of this Ordinance. Section 23-13-11 of the Mississippi Code of 1972, as amended, requires that "every ordinance passed by the Mayor and Board of Aldermen,---shall be published at least one time in some newspaper published in such municipality, or, if there be no such newspaper, then in a newspaper within the county having general circulation in said municipality---."
- 2206.11 Effective Date of Ordinances Amending the Text of this Zoning Ordinance or Official Zoning Map: In accordance with Section 23-13-11 of the Mississippi Code of 1972, As Amended, "No ordinance shall be in force for one month after its passage---". One month is interpreted to mean 30 calendar days.

## SECTION 2207 - SITE PLAN REVIEW: PURPOSES AND WHEN REQUIRED

2207.01 Purposes: The purposes of site plan review are: to promote the health, safety and general welfare of the Town; to insure that structures are built in accordance with the provisions of this Ordinance and the Standard Building Code; to conserve the value of existing buildings and structures; to prevent excessive uniformity and dissimilarity and inappropriateness or poor quality of design in the exterior appearance of structures; to prohibit unsightly and unsuitable structures that would be out of harmony or incongruent with existing visual features within the district; and to prevent harm and damage to the Town which will result from the absence of such review and manifest itself by:

- (i) lower property values;
- (ii) decreased economic growth; or
- (iii) diminished future opportunities for land use and development.

2207.02 When Site Plan Review Is Required: Site Plan Review shall be required for the following:

- A. All new, expanded, relocated or reconstructed principal (i.e., not accessory) buildings or structures in all zoning districts, other than single-family detached dwellings in A-1, R-1, R-2, R-3, or PUD districts. The specific use of such principal buildings does not have to be identified on the site plan. New, expanded, relocated, or reconstructed accessory buildings or structures shall only require site plan review when such review is determined advisable by the Zoning Administrator, EXCEPT FOR DOWNTOWN PRESERVATION DISTRICT, WHERE SITE PLAN REVIEW SHALL BE REQUIRED FOR ALL ACCESSORY BUILDINGS OR STRUCTURES.
- B. If the Zoning Administrator determines that more information is needed than is included on the plot diagram submitted with an application for a building permit, then a site plan shall be submitted with an application for a dimensional variance.
- C. ALL applications for conditional uses.
- D. All public/quasi-public utilities and facilities. In accordance with Section 402, such public/quasi-public utilities and facilities shall be allowed only as conditional uses in any district.

- E. If a specific use is identified by the applicant for a rezoning (i.e., a proposed amendment to the Official Zoning Map), then the application shall be accompanied by a site plan.
- F. ALL proposed floodway modifications (to prevent "channelization" without regard to appearance).
- G. All proposed off-site parking (i.e., off-street parking proposed on a lot other than the one to which the parking is appurtenant) in any district.

## SECTION 2208 - SITE PLAN REVIEW PROCEDURES

The Zoning Administrator shall act as the coordinator for the site plan review process. He shall advise all applicants for building permits if the proposed use requires the preparation and submission of a site plan and the official approval of that plan prior to the issuance of the permit. All applicants shall follow the procedures specified below:

2208.01 Sketch Plan: Prior to filing of an application for approval of a site plan, the applicant should meet and consult informally with the Zoning Administrator. This meeting will give the applicant an opportunity to secure guidance as to what will probably be required before incurring great expense in making a detailed site plan.

2208.02 Submission of Site Plan: Five (5) copies of each site plan shall be prepared and submitted to the Zoning Administrator, who shall retain two copies and distribute the other three as follows:

-one copy to the Town Engineer

-one copy to the Fire Chief

-one copy to the Planning/Zoning Commission

Consistent with the submittal requirements for subdivision plats, as specified under Section 2202.02 (c), site plans shall be submitted at least twenty-one (21) days prior to the next regular meeting of the Planning/Zoning Commission at which the plan is to be reviewed, or it will not be placed on the Planning/Zoning Commission agenda for that meeting.

The Zoning Administrator shall notify the applicant of any deficiencies or omissions in the site plan. The site plan shall not be processed until all required data is provided as prescribed in Section 2209 of this Ordinance.

2208.03 Applicant Must Be Represented at Planning/Zoning Commission and Mayor/Board of Aldermen Meetings: Applicants (or their designated representative) for site plan approval shall be present at meetings of the Planning/Zoning Commission and Board of Aldermen when their proposed site plan is to be reviewed, or no action will be taken by those bodies.

2208.04 Planning/Zoning Commission Review of Site Plan: Following receipt of the site plan and supporting data as prescribed under Section 2209, the Zoning Administrator shall forward one copy to the Planning/Zoning Commission for review.

The Planning/Zoning Commission shall review the site plan and data at its next regular meeting following submission of same to the Zoning Administrator. THE ZONING ADMINISTRATOR (OR HIS DESIGNATED REPRESENTATIVE) SHALL BE PRESENT AT THE PLANNING/ZONING COMMISSION MEETING.

The purpose of this review is to ascertain whether or not the applicant's proposed building or structure conforms with this Ordinance and other applicable laws, will maintain harmony and continuity with similar existing uses within the district and considering other like structures within 500 feet of the proposed structure as measured from each lot line of the proposed structure excluding streets, alleys, and other public rights-of-way.

After reviewing all information relative to the site plan, the Planning/Zoning Commission may recommend approval or disapproval of the site plan or before approval, may request the applicant to modify, alter, adjust or otherwise amend the plan. If the Planning/Zoning Commission determines that the proposed structure or is excessively similar or dissimilar and makes a specific finding that the structure as proposed would provoke one or more of the harmful effects as set forth in 2207.01, and that such finding is not based upon personal preferences as to taste or architectural style or design, then the application for a building permit shall be denied. If the site plan is recommended by the Planning/Zoning Commission for approval, such recommendation for approval shall be contingent upon final review and approval by the Mayor and Board of Aldermen.

In any case, the Planning/Zoning Commission shall make a written statement of its findings (in the form of Minutes) and said statement shall be forwarded to the Zoning Administrator in time for copies of the statement to be available for distribution to the Mayor and Board of Aldermen at the next meeting of that body following the Planning/Zoning

Commission meeting.

2208.05 Approval of Site Plan by Mayor and Board of Aldermen: The Zoning Administrator shall forward the recommendation of the Planning/Zoning Commission to the Mayor and Board of Aldermen. The Mayor and Board of Aldermen shall consider whether or not the applicant's proposed building or structure will conform with the provisions of this Ordinance and other applicable laws, and whether or not it will maintain harmony and continuity with similar existing uses within the district and considering other like structures within 500 feet of the proposed structure as measured from each lot line of the proposed structure (excluding streets, alleys, and other public rights-of-way). If the Mayor and Board of Aldermen determine that such structure would cause or provoke one or more of the harmful effects as set forth in 2207.01, and that such finding is not based upon personal preferences to taste or architectural style or design, then the application for a building permit shall be denied.

If the Mayor and Board of Aldermen approves the site plan, such action by the Mayor and Board of Aldermen shall constitute final approval and authority for the developer to proceed with the proposed development subject to the issuance of a building permit. Following such approval by the Mayor and Board of Aldermen, the Zoning Administrator shall stamp copies of the site plan "APPROVED", sign them, and return one copy to the applicant. One copy shall be retained by the Zoning Administrator in his files.

2208.06 Site Plan Becomes Zoning Requirements for Proposed Use: The approved site plan shall become the zoning requirements for the property involved. All construction, except for minor adjustments provided under Section 2208.07 below, shall be consistent with the approved site plan.

2208.07 Minor Adjustments to the Approved Site Plan: After the final site plan has been approved, minor adjustments to the plan which comply with the spirit of the Zoning Ordinance and the intent of the Mayor and Board of Aldermen in approving the site plan may be authorized by the Zoning Administrator as provided under Sub-section 2201.02.

2208.08 As-Built Plans: In the case where exact lot lines cannot be drawn until after construction, (e.g., townhouse subdivisions) the builder shall submit "as-built plans" of the development following construction.

SECTION 2209 - SPECIFICATIONS FOR ALL REQUIRED SITE PLANS AND ELEVATIONS

- 2209.01 Site Plan Specifications: The following data shall be supplied by the applicant in connection with required site plans:

These signs shall be erected not less than fifteen days prior to the date of the public hearing. When more than one parcel of land is involved in the proposed zoning action or the proposed use, enough signs shall be posted to adequately identify the area affected. The notice to be posted on the property involved shall consist of a sign that is no less than sixteen (16) square feet in size with lettering that is no less than two (2) inches in height. The sign shall have a white background with black lettering.

2211.03 Public Hearings Before the Planning/Zoning Commission: Where public hearings are required by this Ordinance, the Planning/Zoning Commission shall conduct a public hearing at which all interested persons shall be recognized and given an opportunity to speak. At the conclusion of the public hearing, the Commission shall, on its own motion, forward their recommendation to the Mayor and Board of Aldermen. Only a majority vote of a quorum of the members of the Commission shall carry a motion to approve or deny an application for a variance, conditional use permit or

amendment to the text of this Ordinance or the Official Zoning Map. Only in case of a tie vote may an application be forwarded to the Mayor and Board of Aldermen "without recommendation".

- 2211.04 Changes to an Application for Variance, Conditional Use Permit, or Zoning Ordinance Amendment (Including Re-Zonings): Any change proposed by an applicant for a variance, conditional use permit, or amendment to this Ordinance (including re-zoning applications) at the time of the hearing, except for conditions recommended by the Commission for variances or conditional use permits, shall require a rehearing before the Commission with another public notice.

#### SECTION 2212 - FEES

- 2212.01 Schedule of Fees: The Mayor and Board of Aldermen shall establish a schedule of fees for the issuance of building permits, change of use permits, the processing of all site plans required under Section 2207, and the processing of applications for variances, conditional uses and zoning amendments. Said schedule of fees shall be posted in the office of the Public Works Director, Zoning Administrator or other designated Town official whose office shall be responsible for their collection.
- 2212.02 Amendment of Alternation of Fee Schedule: The schedule of fees may be altered or amended only by the Mayor and Board of Aldermen.
- 2212.03 Payment Required: No action or processing shall be taken on any application until all applicable fees, charges and expenses have been paid in full.
- 2212.04 Fees Not Refundable: No fees or other monies paid in conjunction with zoning-related matters shall be refunded.

#### SECTION 2213 - APPEALS

- 2213.01 Appeals from Administrative Interpretation of the Zoning Administrator: In accordance with Section 2201.02 of this Ordinance, any party aggrieved with the administrative interpretation of the Zoning Administrator shall have the right to appeal such interpretation. Such appeals may be made directly to the Planning/Zoning Commission. If the appeal is made to the Planning/Zoning Commission, the party aggrieved shall submit a written request to the Town Clerk one week preceding any regularly-scheduled meeting of the Planning/Zoning Commission at which the aggrieved party desires to be heard.

All appeals shall be in writing and shall include a copy of the original application for a building permit, change of use permit, dimensional variance, special exception or rezoning, together with a statement of the reason for the appeal.

2213.02 Appeals from Recommendation of the Planning/Zoning Commission: Any party aggrieved with the recommendation of the Commission as adopted at any meeting of the Commission shall be entitled to a public hearing before the Mayor and Board of Aldermen with due notice thereof and after publication for the time and as provided by law. An aggrieved party may be anyone who takes exception with the recommendation made by a majority of a quorum of the Commission.

Such a hearing shall be provided ONLY IF THE AGGRIEVED PARTY FILES A WRITTEN REQUEST WITH THE Town CLERK WITHIN FIFTEEN (15) DAYS OF THE VOTE OF THE COMMISSION ON THE RECOMMENDATION.

The Board will set a hearing within 30 days of receipt of request.

2213.03 Fee Required for Appeals from Planning/Zoning Commission Recommendations: Any applicant aggrieved with a recommendation from the Planning/Zoning Commission regarding a variance, conditional use permit, or amendment to this Ordinance shall file an appeal fee with the Town Clerk, the rate for which shall be set as the same required for publication and public notice as required in the original application.

2213.04 Appeal Hearing by the Mayor and Board of Aldermen: In the event an appeal is made to the Mayor and Board of Aldermen by a party aggrieved by the recommendation of the Planning/Zoning Commission, the Mayor and Board of Aldermen shall order public notice to be given by publication of the appeal and posting of a sign. The appeal shall be heard as a public hearing and as a matter to be placed on the agenda of a regular or adjourned meeting of the Mayor and Board of Aldermen. In no case shall the appeal be heard before proper notice shall be given. At the time of the Appeal Hearing, the Board shall hear the recommendation of the Commission, and then hear from the appealant and then the appellee and other interested parties. The Mayor and Board shall then uphold or reject the appeal, and then accept or reject the recommendation of the Commission upon its own motions. If the appeal or recommendation of the Commission has several parts, the Mayor and Board of Aldermen may uphold the appeal and accept the recommendation of the Commission on some, and deny and reject others. Any change in any part or parts of the petition which the Mayor and Board of Aldermen may deem appropriate or necessary resulting from the appeal (except conditions applying to

variances and special exceptions), shall be referred back to the Planning/Zoning Commission for reconsideration, subject to public notice and hearing, as a separate and new petition. The filing fee may be waived at the discretion of the Mayor and Board of Aldermen.

2213.05 Appeals to a Court of Law: An appeal from any action, decision, ruling, judgment or order by the Mayor and Board of Aldermen may be taken by any person or persons to the Circuit Court of Copiah County.
